### GZone Pvt Ltd

UI/UX DESIGNER

124, Church Road, Bandiyamull, West, Gampaha

Designed a live streaming ecosystem for gamers, focusing on seamless user experience, real-time interactivity, and visually engaging interfaces. Conducted user research and wireframing to optimize usability for streamers and viewers. Collaborated with developers and product teams to create responsive, modern UI designs aligned with Gzone's brand identity.

## PROJECTS

---

### AI-Powered Personalized Meal Planner

Developed an AI Meal Planner using React.js frontend with Flask backend that generates nutrition plans through genetic algorithm optimization. The system intelligently adapts meal recommendations based on user health metrics, dietary restrictions, allergies, and activity levels while incorporating health risk management for conditions. Implemented real-time calorie estimation, interactive meal timing recommendations, and integrated workout planning to create comprehensive wellness solutions.

### Digital Gaming Ecosystem Project

Game zone is a digital platform integrating social networking, video streaming, esports engagement, and a multi-vendor marketplace within a single unified application. The project focuses on enhancing community engagement, simplifying content creation, enabling creator monetization, and providing seamless access to gaming-related products and services. Designed with scalability, inclusivity, and innovation in mind, GZONE aims to connect gamers, content creators, and vendors across local and global markets.
